Ecolabelled products: Designation and specification of the product/service:
 See Appendix 1

The ecolabelling organisation hereby grants the above licensee and registration holder the right to use the Nordic Ecolabel in accordance with the terms of the license on or in connection with products that conform to the provisions of the relevant ecolabelling criteria or in connection with the marketing of products. The use of the ecolabel on other Nordic countries requires separate registration in each country. The licensee of the ecolabelled products shall, once a year, respond to the ecolabelling organisation by 1 April at the latest.

The ecolabelling organisation undertakes to inform licensees if any amendment is made to the criteria documents.

The licensee will be revoked with immediate effect if the "Regulations for Nordic Ecolabelling of products" or the ecolabelling criteria for the product group are discontinued if the licensee causes the ecolabelling organisation direct or indirect costs as a result of this or if damage is caused by a product manufactured by the licensee. The licensee shall indemnify the ecolabelling organisation in full.

The ecolabelling licence is valid up to the specified date unless notice of cancellation is received by the licensee or the ecolabelling organisation at least three months in advance. The licensee is not transferable unless an application for transfer is submitted.
